

1 Neighborhood Associations in Saitama Prefecture

A neighborhood association is a group of people who all live in the same place and help each other. Saitama Prefecture's apartment buildings have neighborhood associations to help make life easier and make relationships between people better. Neighborhood associations also help clean and take care of the building. Here are some things neighborhood associations do:

(1) Shared Area Costs

People living in the same apartment building share some things like elevators, hallways, and lights. Neighborhood associations collect money from everyone to help clean and take care of these areas. (Ask a member of your neighborhood association about how much you need to pay.)

(2) Teaching What to Do During Emergencies

If there is a fire, earthquake, or other emergency, you need to stay safe and escape quickly. Neighborhood associations help teach people about what to do in an emergency. Please come and learn how to stay safe.

(3) Cleaning Days

All people living in the building help clean shared areas together on days decided by the neighborhood association. Please help keep the building clean for yourself and others.

Please help your neighborhood association so everyone can live happily and safely in a clean apartment building. Thank you.
