

## ◆OSGS プログラム後期講義テーマ

The theme for Spring 2023 is *All for One and One for All*. In this course, students will continue the work begun by the Fall 2022 class and explore in greater detail Hofstede's cultural dimension of *collectivism vs. individualism* in Japan and the United States. The students will examine the role of individuals as members of a larger society, including the benefits and struggles encountered by collectivist and individualistic approaches.

Each participant will be paired up with a University of Findlay student. Each pair will be responsible for research on *collectivism vs. individualism* in Japan and the US from different angles. The final results of the research will be presented publicly at the University of Findlay's Symposium for Scholarship and Creativity in April, 2023. In addition, the participants will engage in discussion with international students of the University of Findlay as well as Ohio professionals who work across cultures.
